

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 11, 1999 LB 148

that are appropriate under this...under this trust fund, it appears, by their description, that the grant program can be for one year or it can be for 25 years. Would you agree with that?

SENATOR JENSEN: I would agree with that.

SENATOR BEUTLER: Okay. So, therefore, the long-term nature of this commitment is also not contrary to this particular fund. Everything fits except one thing, and I have to admit this, everything fits except one thing. The only thing that doesn't fit is that they have not yet designated the council, although under the statute they should have by now. They have not yet designated the council to make these decisions about what they want to fund and what they don't want to fund, what they want to fund first, second, third, that sort of thing. So maybe you want to continue down the road of striking this amendment, but I certainly hope if you do that, and, Senator Byars, I hate to say this but I have to say honestly, I certainly hope if they strip this amendment off that then they will delay or otherwise cause this bill to wait until the advisory committee is formed and a decision is made by that...by that advisory committee. Because, otherwise, it seems to me we're funding out of General Funds what should have been funded out of the Health Care Trust Fund, or at least the Health Care Trust Fund people should have been given the opportunity to fund it there before other funding was required outside of the trust fund. So I hope you will take that into consideration and, Senator Byars, when you get time to speak, I wanted to ask you, and I also would invite Senator Jensen to respond to the question, of whether this particular bill and proposition has been coordinated with the community health care sections of the statutes, which is designed to be the delivery mechanism, apparently, of community public health services statewide. And, as I understand it, there's a statewide plan and that there are advisory committees set up around six different community health regions which are to approve and advise on particular public health kinds of programs and propositions. And so what I would ask you, Senator Jensen, to start with, has this bill been coordinated through the regional community health care groups and with their advisory committees? I would be interested in knowing that.

SENATOR JENSEN: Senator Beutler, I'm sure that they have
